HYDROGEOLOGIST POSITION

Idaho Geological Survey

Position Summary

The Idaho Geological Survey (IGS) is seeking a full-time, permanent Hydrogeologist for their Boise, Idaho office at the Idaho Water Center. The Hydrogeologist position is the technical lead for hydrogeologic, geothermal energy, and groundwater research projects at the IGS. Qualified applicants should be versed in groundwater modeling, the design and monitoring of groundwater networks, the collection and interpretation of hydrogeologic/groundwater data, characterization of aquifers, and geothermal resource development. Proven experience required for the successful solicitation of funding from external research sponsors, the development and administration of budgets, the supervision of technical staff, and the publication of hydrogeology/groundwater research.

An attractive benefits package and moving allowance is available to the successful candidate; an annual salary up to \$65,000 is provided, commensurate with experience.
